

13.9 JOB POSTINGS

To provide a system by which employees may investigate, apply and be selected for job openings on an equal basis with outside applicants.

LADD supports the practice of promoting from within when practical and when an employee is the best match for the position. LADD also believes that employees have the primary responsibility for their own career development. To assist in both of these processes, the company posts job vacancies at the same time that outside recruitment sources are notified.
